The publisher was unable to obtain photographs or records of the following men of Cottonwood County who were in the service. Many of them were transients, boys who had no parents or relatives in the County. Of a few there were no acceptable photographs to be had. Another handful was indifferent

to the work and preferred not to appear among the likenesses of Cottonwood County's fighting men. That they may receive the credit which is theirs for their service, of whatever nature it may have been, we publish below the names of those of whom we were unable to obtain photos or record.
